Good morning,

The attached responses to the Wall Street Journal need OGC review. They have been reviewed by JIC, and EOC Mgmt. These are priority for review by OGC. We need to respond to the WSJ ASAP.

We have reviewed the attached responses and provided edits. We do recommend that OGC provide an additional review to clarify the Superfund designation (removal/remedial/NPL/SAA).

Hi all,

Nancy- I think you got dropped off this email chain earlier. I'm adding you back in.

The earlier email (below) included a document, which is attached again here with an update to Question 4 and Question 10. It still needs a full/approved answer to Question 10.

David/Nancy- are you finishing question 10 and sending an update to the reporter today? As for Questions 11 and 12, we can start those unless your team has already.

Hi David and Laura,

Some of questions required a FOIA request, per emails last week. Robert Daguillard told the reporter (Weds Aug 19 ) that questions 1, 6, 7, and 8 require a FOIA request. NOTE: The reporter then followed up with two additional questions. These have not been fully drafted (I will start working those drafts/approvals separately). Per Laura's indication, the first ten should be dealt with first and responded to ASAP.

Attached is a clean DRAFT document summing up the twelve questions (original ten with draft responses copied from below, plus the two follow-up questions that relate to the first ten). There are still things to be addressed under questions 4 and 10.

Thanks,

Emily

Yep, sorry, forgot to mention -- we are still looking for Q 1 -- should be sending up soon

R8 stripped out the question before sending the inquiry to us

Here's what I have so far - - still looking for Question #1 (not coming up in any of my documents) and have asked OW desk to help respond to last one.

As this is already a week old, thought it would be best to share with you what we have so far.
